Current Comment

The leading paragraph of last week's comment was devoted to a bitter indictment of the Turlock Rotary and Exchange clubs. These organizations had been reported as planning an "egg battle" for the purpose of cutting down the surplus supply of hen-fruit, and we, along with a lot of other mis-informed newspapers, decried the approaching battle as unfair to the many people who, even at prevailing low prices, cannot afford to eat egs—and mighty little of anything else. It seems that several dollars worth of eggs *were* to be tossed about by the aforementioned clubs, but merely as a publicity measure, the real feature of the day being the distribution of eggs to the needy. With every mile the story traveled the quantity of eggs to be hurled by service club combatants grew to undreamed of proportions, and by the time it reached this neck of the woods we had good cause to think of Turlock lads as a crowd of inhuman ogres, ready to snatch the life-blood from the veins of babes and sucklings. We stand corrected.

It wont be long now. Next Monday the old timers will head for Campbell to take part in the county Old Settlers day. A fine program has been arranged for the morning and for the afternoon, and in the evening there will be the customary show, staged as a part of the festivities and to raise money to defray part of the expenses of the day. It is to be hoped that everyone will join in the celebration. Here is an opportunity to renew old acquaintances and make new ones. Music, interesting talkers, sports and lighter amusements for everybody—Campbell's contribution to the annual cycle of county-wide events, Old Settlers day.

The Christian Science Monitor, issue of March 16, carried the first of a series of articles dealing with the findings of ex-Governor Young's "laymen's committee for the investigation of the educational system of California." Perhaps that is not the proper title but it covers the field nevertheless. The series deals with such subjects as text books, character training, teacher training, religion in schools, needy pupils and the education department, to name a few. Public schools week is in the offing, and those who would acquaint themselves with the strengths and weaknesses of the educational system as practiced in California schools could do no better than follow carefully this series of articles.

Speaking of schools—what do you think of a new high school for the Campbell union district? We hear a lot of dissenting voices along with a practically deafening chorus of "ayes." What has anyone got against a new school? The cost? Well, costs will never be less than they are right now—and what could be sweeter than a high school plant built at "low tide" and paid for on the crest of the inevitable wave of prosperity?

It is too bad that so many people think a new school would break them. With the proper financing a new school, built right now, would cause an almost imperceptible increase in taxes, and it would increase greatly the value of property in the union district. It is foolish to believe that this part of the valley will long remain a strictly orchard country. Within 20 years we believe this locality will be almost a suburb of San Francisco. It is true that the advance guard of homes is rapidly charging down the peninsula, and it will eventually swallow up what is now practically all orchard land. iWthin a very few years many ranches hereabouts will be subdivided, and the price they bring for that purpose will be greatly influenced by the worth of local schools. Think it over—you'll come to regard a new school in the light of an investment—and one that is needed right away.

Yesterday the board of supervisors, at the instigation of Joe McKinnon, applied to the county "almshouse" the title, Rest Haven hospital, and to the "county" hospital the name, Hills View hospital. We have long held that "almshouse" is certainly an uncharitable designation for a charitable institution, and we are glad that the county supervisors feel that way about it, too.

TURNER-RIBBLE WEDDING HELD HERE SATURDAY

An informal wedding which united in the bonds of matrimony Elizabeth, daughter of Mrs. iWnfield Turner of Campbell, and David Wellington Ribble of Marshfield, Ore., was solemnized at nine o'clock Saturday morning, Feb. 14, at the home of the bride's mother. The officiating clergyman was the Rev. J. H. Bennett, pastor of the Congregational church of Campbell.

The bride was given in marriage by her mother. The attendants were Miss Evelyn Kloster of Fresno and the brother of the bride, Albert Turner. Decorations of pink spring flowers and maidenhair fern served as a background for the bridal pair, and bowls of jonquils and narcissus were about the room.

The bride wore a going-away gown of beige and chestnut brown crepella and carried a bouquet of Ophelia roses and lilies of the valley.

Mrs. Ribble has been for several years a teacher of physical education in the Fresno high school. The bridegroom, affiliated with the Associated Oil company, comes from New Jersey and is a member of the Sigma Alpha Epsilon fraternity of the Pennsylvania State college.

Those present beside the immediate family of the bride and Mrs. Sara Alice Ribble, mother of the groom, were Mrs. Alice Ebaugh, Mrs. Minnie Barnes, Mrs. R. W. Maxon, Daniel Boone, Miss Adele Grandeman, Miss Miriam Blaine, Alice Graham of Oakland, Fannie Bagley of Ceres, Mrs. Rose Willey of San Jose, and Albert C. Blood, grandfather of the bride.

Of special interest was the fact that this wedding occurred on the 54th wedding anniversary of the bride's grandfather.

Friday evening preceding the wedding day, Mrs. Turner served a seven o'clock dinner to 25 friends of the family. Saturday morning following the ceremony, a wedding breakfast was served. The bride was honored with several showers while in Fresno.

The newly-weds departed at noon Saturday for San Francisco, where they will visit for a few days with iLeut. John H. Stokes of the Presidio, a friend of the groom, recently arrived from New Jersey.

"DOLLAR DAY" IS INSTITUTED ON THE RAILROADS

That public benefactor, the "dollar day" sale, has found its way into railroading!

Marking an innovation in this field, the Southern Pacific company today announced plans for widespread "bargain" sales of round trip transportation, scheduled for two successive Fridays, Feb. 20 and 27, with fares approximating a "cent a mile."

The extraordinary offer in the interest of promoting travel will apply over all the company's Pacific lines, extending from Portland to El Paso and from San Francisco to Ogden, it was made known here by C. T. Tanner, agent for the railroad.

Providing for travel on all trains —both coach and Pullman—the Friday "dollar day" tickets will be good for four days from the date of sale, Mr. Tanner stated. The return limit will be the following Tuesday midnight.

The reduction to be offered, Mr. Tanner declared, rival the "price slashes" in the field of merchandising. He said:

"Railroad officials have watched the growth of the dollar day sale and we now believe that application of this idea to passenger transportation will be of marked advantage to those interested in travel economy.

"Southern Pacific feels that travel bargains will be just as acceptable to the buyer as merchandise bargains, and for that reason we have decided to make this novel experiment."

On the basis of approximately one cent a mile, it was pointed out that the fare from Campbell to San Francisco for example, will be $1.15 as against the usual fare of $2.50.

What Are We Going to Do About It?

(Copyright, W. N. U.)

THE SPORT FORUM
By DICK LYNDEN

An amazing deal of new terms, added to the perturbing list of ordinary stock expressions, seems to have so raised the public opinion of the sport writing clan as to make that profession almost respectable in certain less discriminate social circles, and providing someone does not expose their unsurpassed ignorance, it seems likely that they may even cut a figure with the lesser pool hall and roller rink magnates sometime in the future.

What with psychology, dietetics, and biological chemestry, playing very significant parts in the advance stories of prominent scribes, the intelligence level of the entire profession is bound to be given more respectful consideration, especially since the public is not only flattered but rather nicely bamboozled by the mysterious magic of any two-syllable word. The fact that Webster was perhaps excessively verbose in his immortal composition is no excuse for the deceptions the public suffers due to its own ignorance of the tongue, and to my mind, the journalistic illusions it patronizes are a just desert for its own stupidity.

On the other hand, the sport scrivveners probably never will cut the mustard with those interests which promote the lovely athletic extravaganzas, for the very obvious reason that they are a backbiting bunch of parasites. The tone of low triviality which is commonly employed in describing major sporting events is an outrage of decency and importance, and clearly shows that these human parasites feel more grateful to the public for its tolerance than to the interests which give them butter with their berad.

In polishing up the thought, it is only fair to submit that there are some journalists with at least a practical sense of honor, a trifling measure of intelligence, and a natural preference for salt in the spinach which leads them to a generous treatment of the sporting interests. But these exceptions find little favor in thte public eye . . .

Three goals in the final minutes of play, contributed by Joe Kintana, resulted in a 37-34 victory for California last Saturday night and while Stanford was virtually eliminated from the championship race, the Bears retained their halfshare in conference leadership. California will undoubtedly win this section of the league, but the conference play-off, scheduled for the early part of March, will pit them against the Washington five, according to present indications, and the Huskies claim the best aggregation in the history of the school. The series will be played at Seattle.

WHIST PARTY AT CAMBRIAN HOME AND SCHOOL CLUB

The Cambrian Home and School club held a very sucessful Valentine whist party at the Cambrian school Friday evening with 15 tables in play.

Many beautiful and useful prizes were awarded players with high scores. Refreshments were served by a committee headed by Mrs. Eva Bachman.

Those serving on the committees in charge of the party were Mrs. F. O. Bohnett, General chairman; Mrs. John Carlisle, chairman of the table reservation committee; Mrs. Eva Bachman, refreshments, and Mrs. Emily McConnell, prizes.

MRS. F. BOHNETT ENTERTAINS AT BRIDGE

Wednesday evening Mrs. Floyd Bohnett entertained at bridge, those present including Mesdames Frank R. Anderson, Horace eLa, Julius Bachman, H. Owen Smith, Earl Young, Lawrence Hendricks, Ethan Lanphear, Ernest Snow, Maynard Knopf, E. W. Ohlen, Burt Young and the hostess.

High scores were held by Mrs. Earl Young and Mrs. Hendricks.

Refreshments were served at the conclusion of play.

COUNTRY WOMEN HEAR AUTHORITY ON LANDMARKS

Miss Jessie Williamson of San Jose, state chairman of California history and landmarks committee of federated women's clubs, was the speaker for the Country Woman's club Monday, and gave a most interesting talk on her favorite subject. She is nearing the close of her two years service in this department and so her talk was largely a resume of things accomplished during this time.

Using as her slogan, "Mark the Spot," she stressed that point thruout the state, and has met with gratifying sucess and co-operation. She told of many historical spots that various clubs have marked, either thru their own efforts or by arousing public interest in them.

An open discussion followed during which Mesdames Lillie F. Shaw, Charlotte W. Sutter and Alda Blaine recalled early history and landmarks.

Miss Jeanette Wellington played two delightful piano numbers, "Madralean" and "Amour Couquet," and then acted as accompanist for Mrs. Roberts of the grammar school faculty, who favored the club with two solos, "Mavorneen" and "I Love You Truly."

The committee in charge, Mesdames G. E. Farley, George Husted, and A. W. Wellington, had attractively decorated the room with spring flowers.

On March 2 the club will have an open meeting, the subject for the afternoon program being "Interior Decoration and Home Industries." The committee has been fortunate in obtaining Beatrice Gildersleeve of Felton, who will talk on the history and modern technique of batik.

Mrs. Gildersleeve is a member of the Society of Women Artists of San Francisco and the Santa Cruz Art league, and her murals have been on exhibition at the Beaux Arts gallery, the East-West gallery of San Francisco, the Casa Manana in Berkeley and various other clubs interested in the beauty of creative textiles.

Mrs. Gildersleeve is at present exhibiting at the Mark Hopkins hotel in San Francisco, and will bring a number of beautiful and interesting murals with her, including Donner Summit bridge, Crucifixion—an altar motif; eucalyptus, Fish and Frog—a hanging for a child's room, and Carmel.

Mrs. Gildersleeve is the wife of C. C. Gildersleeve, prominent bridge contractor of the Monterey district, and daughter of Mrs. Elizabeth Gerberding, talented and active clubwoman of San Francisco.

ALL SET FOR THE OLD SETTLERS, IS FINAL WORD FROM CHAIRM'N SHADLE

Details of the program for the 37th annual celebration of Washington's birthday and Old Settlers day are complete, acording to H. M. Shadle, general chairman.

The forenoon program, with C. H. Whitman in charge, begins at 9:30 with a parade thru the town by the high school band. At 10:30 a program will start in the grammar school auditorium with selections by the high school orchestra under the direction of A. A. Thielke. The assembly will sing "America." Invocation will be pronounced by the Rev. Mark Rifenbark and an address of welcome will be given by T. A. Cutting, chairman of the day. At 10:55 the Spartan Glee club quartet of the San Jose State college, under the direction of George Mathews, will sing several numbers. The members of the quartet are Charles Hansen, first tenor; Gerald Erwin, second tenor; True Tourtillott, baritone and Herman Miller, bass.

The principal address of the morning will be delivered at 11:05 by the Rev. Walter John Sherman, D. D., and his subject will be, "What is an American." Immediately following Rev. Sherman's remarks there will be several more selections by the quartet. Announcements will be made and the benediction asked at noon by the Rev. J. H. Bennett.

A cafeteria lunch will be served at the grammar school, and tables will also be available for those who bring their own basket lunches.

The afternoon program begins promptly at 1:30 with the judging of the whiskers by the Rev. A. S. Buell. A five-dollar prize will be awarded the best whiskers in the house, and another prize may be offered for the best home-grown, current crop whiskers.

Delegations of old timers from all over the county will be on hand to tell of their experiences in the early days. Speakers have already responded from Santa Clara, Los Gatos, Morgan Hill, Sunnyvale, Gilroy and Palo Alto. More are expected to come in this week.

On this program will appear a ladies' sextet composed of Mesdames W. Grattan, H. M. Shadle, R. H. Hyde, F. Howes, W. C. Bohnett, D. Page and Miss Annette Merrill, with Mrs. G. S. Robson at the piano.

A baseball game is scheduled for 3:30 with the local ball team mixing with the Johnny Walters team of Palo Alto.

At 8 o'clock in the auditorium "Brush the Great" will amuse what is expected to be a large crowd with magic, illusion and comedy. Those who have seen his performance are generous in their praise. Brush is said to have no equal in his profession. A small admission charge will be levied for this feature of the program.

Saturday evening preceding Old Settlers day the Orchard City Grange will stage a dance at which old-time dances, old-time costumes and old-time whiskers will be featured. A nominal admission charge will be in effect and refreshments will be purveyed by the ladies of the Grange Auxiliary. The Grange orchestra will furnish music, and everyone is urged by the program comittee to attend, as is will pep up the spirit for the forthcoming holiday.

CLUB PLANS APRON SALE

A meeting of the Ada Rebekah Stitching club was held at the home of Mrs. W. R. Coupland Friday afternoon. Plans were discussed and some preparations made for an apron sale to be held in the near future.

The next meeting of the club will be held at the home of Mrs. A. E. Brydon, Feb. 26, when actual work will begin on the aprons.

CONGREGATIONAL CHURCH

Sunday morning at 11 a. m. Rev. Bennett's subject will be "Thy Will Be Done."

Sunday evening at 7:45 Fred Saxton, physical culture director and coach at the Y. M. C. A. will speak. His talk will be both interesting and humorous, and well worth hearing. Mr. Bennett will preside.

COMPLETENESS OF SERVICE BENEFICIAL

The completeness of the Earl J. Stanley Auto Paint Shop, 525 W. San Carlos St., San Jose, phone Columbia 643, is not realized unless one sees the variety of work done. Departments are operated for body, fender, radiator repairing, or in fact for the rebuilding and reconditioning of a car in all phases except the motor. Mr. Stanley offers the service of calling for and delivering a car and this is the official station for the North American Automobile Assn. and does all work for them regarding insurance claims. This is ample proof of the efficiency and ability of Mr. Stanley and his assistants as specialists and craftsmen.

A few years ago, before factory standards of motor car manufacturing had been installed in large shops it was impossible to eradicate marks of damage sustained by a wrecked car but what it could be detected. Modern methods, tools, equipment and a high degree of mechanical skill are now combined to make it possible for large shops to repair all parts of a car so perfect that it is almost impossible to find any signs of previous damage.

This shop being complete for all repair work is able to work on the above parts of a car including painting, offering the popular and lasting Duco finish or any other desired finish and, being equipped to take care of such work in the one shop eliminates extra cost of putting work in various shops. In addition to eliminating many extra profits by having manufacturing work done under the one roof, the length of time the user is obliged to be deprived of his car is lessened since all departments can be at work when the one basic job is done.

Mr. Stanley, being a master craftsman in every detail of this business, employs mechanics who are experts in attending to all above repair needs. They are well-qualified to do thorough work and this enables Mr. Stanley to guarantee a satisfactory job. No one need hesitate in turning all repair work of the above nature over to this concern. Estimates are gladly submitted and the varied services rendered by the shop are of great benefit to a patron and saves him considerable time and money.

CAMPBELL QUINTS DEFEAT GILROY 5S

Local hoop fans were treated to the sight of a nice drubbing administered by the Campbell high school teams to the representatives of turbulent Gilroy. The 130-pound lads opened up the festivities with a bang and wound their oponents around a 25-9 score and tried to make them like it. Ralph Fulton and Merle Murty shared honors, each with 11 tallies to his credit.

The unlimiteds were ripe for the main event, and amid the hoots and jeers of Gilroy rooters proceeded to stack up a 33-15 victory over the cow-herders. All of the lads were on their toes and the work of the Shank brothers, Robinson and Tony Lovoi deserves special mention.

Next Friday night the 130's play Mountain View, with the championship assured. This team is composed of Fulton and Murty,f, Raymond DeSelle, c, Gomes, Compton and Buchelado, g.

The unlimited team will also play Mountain View here Friday night.

FOR SALE—At a sacrifice, an all-electric radio set, 7 tubes, excellent condition, good reception and distance. Must be seen and heard to appreciate quality. Reason for selling will be given upon request. Phone Campbell 122.

CAMPFIRE CLUB ELECTS OFFICERS

An anual election of officers of the Campfire Girls club was held at the Y. W. C. A. Thursday with all officers being re-elected to their places on the executive board. On the board are Miss May Barker, president; Dr. J. C. Elder, first vice president; Mrs. Sanborn Young, second vice president; Mrs. Louis Shelley, secretary, and L. D. Bohnett, treasurer.

Of interest is the fact that Mrs. Shelley is serving her seventh year as guardian, and was commended on her guidance of the girls.

Thusday evening the County Guardians association held a banquet in the cafeteria of the local grammar school, followed by a ceremonial program in the clubhouse.

The banquet was served by the Mohawk group of the Campfire girls under the direction of Mrs. Elliott Marrs and Mrs. L. Shank, Miss Rowena Farman assisting in the preparation.

Several members were awarded the rank of "wood-gatherer" and "torch-bearer." Mrs. Louis Shelley awarded honors for other accomplishments. Several special Campfire songs were sung.

The W. C. T. U. will meet with Mrs. F. S. Newcomb, Wednesday, Feb. 18, at 2:30 p. m.

KIWANIS NOTES
By Heck

Kiwanis ladies night was very much enjoyed last Tuesday evening by a 100 per cent attendance and their wives.

A. A. Thielke, Dorothy Watson and Gladys Nelson rendered several numbers of instrumental music.

iLeut.-Gov. Leon Reynolds of Palo Alto was the speaker and gave a very clear and interesting talk on what Kiwanis stands for. He closed with the following poem which was quite fitting for the occasion:

"What's Kiwanis?"

"Not just button to adorn a coat
To catch the eye of men and make fools gloat,
But something none can wear upon a sleeve
A *faith* that urges men to work and believe.
That's Kiwanis!

"Not just a handshake at the meeting door,
A careless slap upon the back, no more;
But something tingling in that friendly grip
That tells of *love and honest fellowship*
That's Kiwanis!"

"Not just a compliment or a word of praise,
A clever speech, a toast, a well turned phrase;
But *something done* to make our pledge real,
Befitting men who follow an ideal
That's Kiwanis!

"Not just a dinner or a tempting bite,
A feast for gluttons and base appetite;
But something finer than by senses sought,
Food for the inner man, to nourish thought
That's Kiwanis!

"Not just a motto framed upon the wall,
A bit of hollow sentiment—that's all; but something *graven deep into the heart*
Till it becomes of self and soul a part
That's Kiwanis!"

At next week's luncheon "Hi" Baggerly, publisher of the Los Gatos Mail-News, will talk on his recent trip to the south seas. H. C. Smith is chairman of the day.

The members of the Occowasin Campfire Girls enjoyed a skating party in San Jose last Friday evening.

Mrs. R. Housh and Mrs. E. Gerkin of Berkeley were recent visitors at the home of Mr. and Mrs. J. H. Campbell.

SAN JOSE REVIEW

Special effort has been made to give the readers of this issue a comprehensive review of the progress made along certain lines of industry operating thruout the Valley. The firms mentioned in this review merit your patronage and they have, thru co-operation and community spirit, made the review possible. The write-ups pertaining to these concerns have been paid for by the firm mentioned in each. They have been compiled by one connected in no way with any of the enterprises and we are grateful to these business leaders for their staunch co-operation.

EFFICIENCY AND DIVERSITY FEATURES OF TRACTOR

The farmer purchaser of a Caterpillar Tractor enriches not only himself but his community. It is an investment that pays dividends in money and time and gives the operator ample power for careful, thorough cultivation and his land yields better crops than ever before.

The work of 15 or 20 men is now done with one tractor. This means a large saving for the rancher and the idea is equally practical for the small farm. Wherever the use of a tractor is at all practical the Caterpilar has proven profitable, not only on a few but on thousands of farms over a period of years. One cannot afford to buy horses to do their farming or rely on neighbors when they can purchase machinery for less and do twice as much. Everyone knows how unsatisfactory it is to rely on a neighbor to do the cultivating; he cannot come when wanted and the work is often unsatisfactory.

The San Jose Tractor and Equipment Co., 763 The Alameda, San Jose, phone Ballard 6056, under the direction of Frank F. de Lisle, president, and William Tait, vice president and manager, carry a complete line of Caterpillar Tractors, combines, graders, Killifer Implements, Moline products, Friend sprayers and dusters and hydraulic operated scrapers and bulldozers for road contractors' work.

The Caterpillar Tractor is offered in models to meet your preference. It does more than supply power and reduce labor costs, it increases materially the profit from power farming by reducing cost of operation. And, besides the economy of operation cost it gives you all the features desired in a tractor, adaptability to farm use, durability, simplicity of operation and accessibility. The Caterpillar has many noteworthy achievements to its credit and regardless of the condition of the weather or ground it can be depended upon to complete any task to which it is put, and the same may be said of the other implements and machinery handled by this firm.

Mr. de Lisle and Mr. Tait are both experts on tractors and farm problems and they will gladly give any desired information and explain in detail methods of operation of any product they carry.

PRODUCERS BENEFITTED BY EFFICIENT CONCERN

One of the important establishments that has been a strong factor in making San Jose the desired trade center for this territory is that of A. Levy & J. Zentner Co., successors to Blase Bros. & Co., with locations at 201-213 No. Market St. and 104-112 No. Market St., San Jose, phones respectively, Ballard 309 and Columbia 1180. Blase Bros., namely, A. A. "Tony," Michael "Mike," and Joseph, have been closely associated with the entire community for 20 years. They know conditions, the products of the various sections and the efficient service rendered each and every patron is of great benefit to the producer.

This concern is an extensive dealer in vegetables, fruit and produce, selling at wholesale and affording the farmers a market for their products. The raising of produce is one of the fastest growing industries in tthe country and the fact that this company provides a local market for these products adds much to the progress and prosperity of the entire vicinity.

It is necessary that outlets be provided for various products of any community and this concern, in providing a ready market for farmers is doing much towards developing this important industry. Local money is kept in the vicinity to be spent among the people and thus the entire section is greatly benefitted by the location of this concern in San Jose.

The activities of A. Levy and J. Zentner Co. cover a vast territory as they have other jobbing places in San Francisco, Oakland, Santa Rosa, Fresno, Eureka, Chico, Alturas, Calif., and Reno, Winnemucca and Elko, Nev.

An organization that makes a creed of service and quality has first claim upon the patronage of discriminating people. Blase Bros. managers, have had much experience in this line and their long association with the community whose local interests they have at heart, enables them to render a superior service. Their policy is to supply retailers, a service in which they specialize, with the highest quality of products and this establishment has become headquarters for retailers who appreciate the importance of handling quality products and know they can guarantee their products to their customers. Latest quotations may be had by phoning above numbers.

BUYING
A NEW HOME OR GOING TO MOVE?

Gas heating is the most modern

NOTICE the heating plant when selecting your next home.

The heating plant is a home's heart. If it is modern, it radiates warmth and cheerfulness.

One sure way to have modern heating is to choose a home equipped with Gas heating. Then you know you will have warmth without effort or bother.

Gas is the most convenient fuel—a finger's touch starts healthful heat flowing into the rooms. Gas is the cleanest fuel—there is no soot or dirt to soil furnishings or curtains. Gas lends itself easily to safe automatic control—no over-heating which causes plaster to crack or chilly under-heating to cause colds.

A house becomes a home only if it brings comfort and contentment. Why not see that your next home is heated with Gas? You'll have the utmost heating comfort.

PHONE 127 SERVICE AND DEPENDABILITY

ESSENTIAL SERVICE EFFICIENTLY RENDERED

The convenience and economy of oil as fuel has been proven and many homes and buildings thruout this section are being equipped with oil heating plants and in places where oil is used for heating or cooking the service offered by the Garden City Oil and Burner Co., 448 Hobson St., San Jose, phone Ballard 140, under the active guidance of O. M. Lanham, is most convenient. This was the pioneer concern in this locality to distribute oil thruout the territory and they are prepared to furnish oil in any quality either by contract or daily delivery.

There is nothing in this age of rapid developments more necessary than efficient oil distribution service and the products handled by this firm have attained an enviable reputation among users in the district and regardless of the amount of oil desired they render the most efficient service in delivery.

In addition to carrying stove and fuel oil this progressive concern also sells and installs manual and full automatic control type burners. People have, for some time, been convinced that the best, most reliable and economical method for heating is by oil and the oil burners handled by this company have been tested and put thru rigid inspection and found to be among the best burners produced. Extreme heat one minute and cool the next as fuel dwindles means an unhealthy conditions of the building and the constant heat of an oil burner means a healthy heat-point at all times.

Mr. Lanham is equipped to install an oil burner in your home or building and relieve you of heating problem burdens with a service that is at your call at all times. He can also furnish you with any amount of oil for fuel and no matter what necessary repair service is needed he can efficiently take care of all such problems at a nominal expense. He tries in every way to satisfy his customers and has built up a large business thru his up-to-date and conscientious methods.

This enterprise is deserving of support and, as the convenience and economy of oil as a fuel has been proven it will be of benefit to consult with Mr. Lanham and learn the advantage of

EXPERIENCE AND RELIABILITY FEATURES OF REALTOR

Real estate is the fundamental security upon which all other values are based and only as real estate transactions are handled by specialists who are well versed in land values and have the best interest of their client in mind can a city or county reach its development or know prosperity.

The real estate field is thoroughly covered in this entire vicinity in the above described manner by James A. Clayton and company, 34 West Santa Clara, San Jose, phone Ballard 217. Here will be found a service in all types of real estate meeting the desires of both the small investor as well as the larger ones with a varied list of properties including city, farm, business and industrial.

Those anxious to start along the road to success and financial indedendence will find that purchasing property through this organization will prove a double purpose for it is true economy as well as the finest sort of citizenship to be a property owner.

This company, established in 1867, is under the active guidance of J. Bradley Clayton and Frazier O. Reed and they are constantly on the lookout for opportunities to forward the development of the entire district. Through their vast knowledge of property values they are in a position to correctly advise what properties are best suited to an investor's desired use.

The substantiality of real estate as an investment and consistent equalizer of values has been brought on by activities in other forms of investments. At present, when people are seeking investmens where they are not only assured of a permanent source of income but reasonable certainty of increased value, the realtor is doing more than his share to meet the demands of the people.

This concern is also active in the insurance field offering practically all types of insurance and is considered the most efficient to act as insurance and real estate consultants.

This company has for years been closely identified with the entire Santa Clara Valley and has aided materially in its growth and expansion.

GRAMMAR SCHOOL PUPILS PREPARE PLAYS FOR MAR. 5

The students of the Campbell Union Grammar school are practicing three operettas to be given March 5 in the auditorium. One hundred and fifty students are taking part in the entertainment, with Mrs. Ruth Stuart in charge of arrangements.

The titles of the operettas are, "The Old Woman in a Shoe," directed by Mrs. Bernice Saveker; "Peter Pan," directed by Miss Adele Grandeman, and "The Good Ship Campbell," directed by Mrs. Lillian Roberts.

Donald Powers Smith, son of Mr. and Mrs. B. J. Smith of the Righter ranch, has been honored by Phi Beta Kappa in the architectural engineering school of the University of California at Berkeley. He graduates in June.

Mesdames J. C. Ainsley, L. Saunders, G. S. Robson, H. C. Smith, G. W. Page, Emma Dalvit, L. J. Carboni, C. H. Whitman and Miss Helah Laird were among those from Campbell who attended the Valentine party given by the San Jose Woman's club last Thursday afternoon.

Group No. 2 of the Congregational Guild will meet this Thursday at 2 p. m. with Mrs. George Morton, South Central avenue. Mrs. Frank R. Anderson will be assistant hostess.

Glendon Knowles, son of Mr. and Mrs. J. W. Knowles, with 12 other boys of his Sunday school class, were entertained by their teacher, Mrs. Sanborn Young, at her home Saturday evening.

A concert will be given by the high school glee club, band and orchestra Thursday, March 5. It will be directed by A. A. Thielke.

GRANGERS ENJOY PLAYLET AT MEET

At a regular meeting of the Orchard City Grange Tuesday evening members enjoyed a playlet entitled "Sewing for the Heathen." Nine ladies from the Jarman chapter, O. E. S., of San Jose, enacted their parts to perfection. They were Mesdames Eloise Cox, Hall Schrader, Ben Slack, Norman Henry, L. R. Nash, Allen Kennedy, Lester Helwig, Wilmer Nash and Edward McLean.

Preceding the play there was a business session presided over by the worthy master, W. H. Woodbury. At this time various committees gave their reports. Frank H. Benson gave an interesting short talk on some of the proposed laws that may be passed soon. Other interesting talks of the evening were made by L. L. Merrill, Louise Adams, W. R. Coupland, George Husted, O. B. Couk and C. Clendenning.

The next regular meeting will be Tuesday, Feb. 24.

PROF. E. A. ROGERS TALKS AT CAMBRIAN

Prof. E. A. Rogers of Montezuma school last week addressed the students of the Cambrian school on "Indian Life in Mexico." Professor Rogers was accompanied on his visit by Whantsita, an Indian boy in native costume from the mountain school. He illustrated his lecture with examples of Indian handicraft. The talk proved to be very popular with Cambrian students.

BRIDGE LUNCHEON AT GULLICK HOME

Last week Mrs. W. H. Gullick entertained her bridge club at luncheon and cards. Valentine decorations graced the luncheon tables and in the ensuing games Mrs. E. C. Price and Mrs. Floyd Bohnett won first and second honors.

Also present at the party were Mesdames George Leigh, Lawrence Hendricks, Allen Drysdale, Maynard Knopf and Earl Young.

Mr. and Mrs. Frank Hart of Anoka, Minn., have gone to Los Angeles to spend a few days with relatives there. They are visiting M. E. and A. A. Purmort here.

The entertainment of the Ladies Auxiliary of the Orchard City Grange, which was to have been given March 14, has been postponed until March 27.

Mr. and Mrs. S. N. Hedegard were visitors in Sacramento last week. They were accompanied by Mrs. Esther Peterson and Mrs. Hattie Frederickson.

A GRADED SHOE REPAIR SERVICE

A recent news article by a prominent doctor says uncomfortable shoes are the cause of a goodly percentage of our divorces. It is impossible, he states, to maintain an agreeable disposition for any length of time if the feet ache.

Try a pair of our new flexible soles and be at ease.

The new Ford is an economical car to own and drive

Low first cost, low cost of operation and up-keep, and low yearly depreciation mean a distinct saving to every purchaser

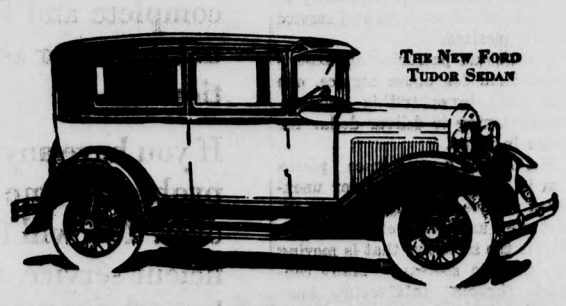
THE NEW FORD is a splendid car to own and drive because of its attractive lines and colors, safety, comfort, speed, reliability and long life.

There are, in addition, three other features of importance to every far-seeing automobile owner . . . low first cost, low cost of operation and up-keep, and low yearly depreciation.

During the life of the car, the day-by-day economy of owning a Ford will amount to considerably more than the saving on the first cost. You save when you buy the Ford and you save every mile you drive.

The reasons for this economy are simplicity of design, high quality of materials and care in manufacturing and assembling. Many vital parts are made to limits of one one-thousandth of an inch. Some to three ten-thousandths of an inch. Throughout, the new Ford is an outstanding example of fine craftsmanship in automobile engineering.

The more you see of the new Ford—the more you talk to Ford owners and experienced mechanics—the more certain you become of this fact. . . . It brings you everything you want or need in a motor car at an unusually low price.



THE NEW FORD TUDOR SEDAN

LOW PRICES OF FORD CARS

$430 to $630

F.O.B. Detroit, plus freight and delivery. Bumpers and spare tire extra at small cost. You can buy a Ford for a small down payment on a convenient financing plan. See your Ford dealer for details.

NATURAL QUALITIES PORTRAYED IN DENTISTRY

Artificial teeth are no longer associated with thoughts of inconvenience in manipulation such as improper mastication and loss of natural articulation for the science of dentistry, and particularly specialists on plate work, have brought about a marvelous innovation in the form of a roofless plate.

The roofless plate assembled by Dr. D. W. Cowan, 5 Post street, San Jose, phone Ballard 5605, is a specimen displaying elements of the highest type of artistic work and, when made for an individual with certain mouth peculiarities, that person is assured of a perfect fit that will meet all such personal elements most satisfactorily. The roofless plate as made by Dr. Cowan is a boon to any user of artificial teeth and is the last word in dental science. A most noteworthy merit of this ultra modern necessity is its perfect hygenic and sanitary qualities and the fact that it is the nearest approach to one's natural teeth ever produced.

Dr. Cowan is a Master Dentist and, in addition to specializing in tthe roofless plate, does regular dental work including bridge work, crowns etc. His fifteen years experience enables him to produce a natural appearance to one's face through his "expression teeth" which fill out the hollows in the cheeks and smooth the wrinkles. The suction on the roofless plate prevents any looseness and enables one to enjoy all the comforts of their original teeth.

Those who have availed themselves of Dr. Cowan's specialized service have nothing but words of praise and sincere admiration regarding the manipulation qualities of his roofless plate which allows one more freedom of tones, clearer pronouncing qualities, far better mastication and a much more natural articulative feeling than would be possible with old style plates.

Dr. Cowan gives personal attention to every patient and guarantees satisfaction. He is open in the evenings until eight and offers a special time saving service to out-of-town patients. His examination and consultation is free and any one desiring the services of a specialist in plate work can consult no one more qualified than Dr. Cowan, for he studies the contour of one's face and produces a plate that duplicates their natural teeth and adds to rather than detracts from one's general appearance.

RELIABILITY IN MERHANDISE HAULING

Transportation of merchandise, especially household furniture, in the past was contemplated with dismay regarding hauling by automobile. There was always so much doubt as to the care exercised in handling, time of arrival was uncertain and the reliability of the firm was sometimes doubtful. This has all been changed. Transfer companies have been formed and managed by men who have made a careful study of the business and, thru persistent efforts have brought the service to its present high state of reliability and efficiency.

One should appreciate what complete transfer service means and know that it is available in the community thru the extensive operation of the James Transfer and Storage Co., 253 No. Market St., phone Columbia 2300, under the direction of W. H. James, whose father established the business in 1888. In addition to hauling and moving service Mr. James operates a modern fire-proof storage house containing private lockers or open storage, either of which may be obtained at nominal cost.

A reliable company such as this firm is directly responsible in promoting and maintaining not only a satisfactory service for merchants in shipping commodities but also for the moving of household goods. Mr. James operates a number of especially constructed vans which oftimes eliminates crating and also assures safety in transportation of the most delicate pieces of furniture. He employs only expert, trained operators who exercise great care of loads enroute and special attention is given promptness of delivery at the desired location.

A business institution's greatness is evidenced by its ability to maintain, as well as increase, its customers and thus it is shown that this company is paramount in their field of activity and are a dominant figure in the business life of the community with which they have been identified for over 40 years, during which they have kept pace with progress and render a superior service in their field of activity.

HIGH SCHOOL NOTES
By
Helen Gartner

The regular P. T. A. meeting will be held in the high school Feb. 18. Supper will be served at 6:30. Parents are urged to attend.

The dramatic club has begun practice on a one-act play entitled "The Boy Comes Home," to be given for the student body in the near future.

The Oriole staff held a prolonged meeting last Thursday afternoon in order to work on the story contest.

A Girls' Leage meeting was held last Tuesday when installation of the new officers took place. Reports of the last G. P. A. L. meeting in San Jose was heard. The league is planning a candy sale for the purpose of raising funds for play day suits.

Try-outs for the operetta will be held Friday, Feb. 27. Members from any class are eligible to compete.

Born—To Mr. and Mrs. T. D. Crawley, Saturday, Feb. 14, a son.

A. J. Robins was a visitor in Oakland last Tuesday.

Dr. and Mrs. J. E. Fanning and small daughter were visitors in Richmond over the week-end.

Cold Wave

A wave of colds is sweeping the country.

We are in the grip of an epidemic of colds, sneezes and sniffles.

As an emergency treatment keep a box of our Cold Tablets always on hand, a safe, sane, emergency remedy for common colds; take them at the first sign—as directed. If the cold persists, or if the lungs or throat seem to be affected—**take no chances**—consult your physician.

LOCAL SCHOOLS PREPARE FOR SCHOOLS WEEK

April 21 has been given as the date for Campbell's program of Public School week observance. This year an effort is being made to give the public who are interested in the schools, particularly in Campbell, an opportunity to see for themselves just what the pupils are actually doing along educational and vocational lines. An unusually good program is being prepared and those in charge of arrangements have been fortunate in obtaining the state superintendent of public instruction, who will deliver an address during the evening. Effort is being made to have attractive exhibits on display, and pupils from each school will take part in the program.

Moving pictures of the activities of both schools will be taken soon and these will be shown at this program. Plan to come and see for yourself, make sugestions and criticisms of constructive nature, relative to the school programs, and in that way be prepared to take a more active part in promoting this, the greatest of American institutions—the public school.

IMPORTANT PROBLEM EFFICIENTLY HANDLED

A firm that is supplying a most necessary service to the orchardist, farmer, in fact all those engaged in agricultural pursuits and those living in rural communities, is the Adrian Manufacturing Co., under the personal guidance of Manuel Adrian, 41 Wilson Ave., phone Ballard 1640, which covers the entire field of water supply from the well drilling, manufacturing and supplying well casings to the distribution and installation of irrigation pumps.

Mr. Adrian is an authority upon the subject of ways and means of obtaining water on the farm or urban localities and producing the water flow to its highest efficiency and his product, the Adrian Pump, is a turbine pump developed after years of experience, study and knowledge, to produce the greatest volume of water possible in the shortest space of time at nominal cost.

There is no equipment that gives so much real satisfaction on a farm as that which gives abundant water supply and this concern has been a great factor in the increased production, comfort and health in rural communities through the distribution of their products and superior service in installation etc. On any farm efficient water supply is a necessity and the score of Adrian Pumps used for irrigation and home supply thruout the section is proof of their superiority. They are built to stand up under long and steady wear and when one is installed you know that your water supply problem is solved. The use of unpure water for any purpose is not safe and the products of this firm assure one of increased land production and healthy condition as well as comfort to living in country districts.

Purchasers who buy from this concern are not only making an investment that will yield big returns but they are contributing to the prosperity of their own community by patronizing home industry. Mr. Adrian will gladly give any information regarding the type of pump best suited for desired use, submit estimates and explain all details of operation. Consult with him and learn the advantages offered through this superior product and services rendered.

Mrs. Mary Lanphear was a visitor in San Francisco last week.

Mr. and Mrs. Charles Berry returned last week from a visit with their son Millard and family in Redwood City.

Miss Agnes Pinick of San Francisco was a recent visitor with Miss Ruth Stubbe.

Born—To Mr. and Mrs. Virgil A. Smith of iWlliams road, Tuesday, a son.

C. T. TANNER—TEL. CAMPBELL 56-W

SPECIALIZED SERVICE AIDS COMMUNITY

The value of property depends upon location. A residence district depends not only on location, but appearance, for its value. Campbell is ideally situated, new buildings are going up and the balance of the community should be in keeping. A coat of paint and especially the roofs are an important part of the progress.

The specialization in distribution and servicing of an article is assurance of the success of that product. So it is with the items handled by the Air-O-Spray Equipment Co., 60 So. San Pedro St., San Jose, phone Ballard 1771. This firm specializes in spray equipment for all kinds of work such as industrial and commercial roofs, spraying of asphalt, emulsion and sand, and through their affiliations with roofing contractors, patrons of the concern can avail themselves of craftsmanship work in above activities. With this company's products one is assured of speed and efficiency. Through the personal advice and co-operation of James Beatty, executive of the Air-O-Spray Equipment Co., regarding the selection of the most suitable type of equipment needed for the work at hand and also because of his untiring efforts in always bettering the efficiency of such equipment the success and popularity of the company's products and service is well merited.

One should patronize an experienced firm for above service, one that pays taxes and is conscientiously trying to deliver dollar for dollar in value.

Mr. Beatty's experience places him in a position to render unexcelled service. He employs only expert men and pride of craftsmanship is the incentive that is moving this firm to success. Many contracts thruout this section have been handled thru the activities of this concern and all have met with complete satisfaction.

In addition to above the firm carries spray equipment for whitewashing or for all uses where liquid chemicals and damp proofing of all kinds are used. In every phase of this business Mr. Beatty features speed and efficiency and in dealing with him one is assured of modern equipment, superior products and a specialized service that guarantees satisfaction.
